June 2013

Welcome,

We hope that you are looking forward to the 'mini CSANZ' meeting coming up next week.

There will be the opportunity to view original work from experts within NZ and Australia, with discussions taking place on the study of cardiac diseases. There will be a variety of presentations in abstract format and rapid fire poster platforms, as well as clinical work shops. We also have our own physiologist meeting, where you will be able to liaise with fellow colleagues.

We look forward to an informative and interesting meeting, and we hope to see you all there.
