

Waitemata

District Health Board

Best Care for Everyone

**Cardiac Physiologist
Permanent, Full Time
Cardiology Service, Waitemata DHB**

Waitemata District Health Board has the largest– and second fastest growing – population among all district health boards in New Zealand. We offer a wide range of services as well as a teaching facility with a well-established and highly respected research programme.

We are seeking an enthusiastic qualified Cardiac Physiologist to join our rapidly developing Cardiac Physiology department. We are an enthusiastic team focused on contributing positively to the future of Cardiology.

As a Cardiac Physiologist at WDHB, you will be part of a busy, integrated, flexible team and expected to maintain skills in all areas. You may be involved with a number of different procedures, including ETTs, ESE/DSE, non-invasive monitoring, pacemaker and ICD clinics as well as cardiac catheterisation procedures Angiograms, PCI, Right heart studies and pacemaker/ICD implants. This will depend on skill level . Ongoing training and professional development is encouraged.

You will need to demonstrate excellent interpersonal and communication skills, an understanding of relevant technology and be willing to work as part of a team.

Our ideal candidate:

- Registered as a Cardiac Physiologist with the Clinical Physiologists Registration Board
- Minimum of two years' experience as a qualified physiologist
